ROTARY SCREW AIR COMPRESSORS

**Gardner
Denver**

3HP to 500HP and more, we can supply the equipment best suited to your requirements.

AIR DRYERS & FILTRATION

**Gardner
Denver** **Parker**
Filtration

Refrigerated or Desiccant dryers provide quality air to meet the strictest requirements. Air filter elements filter out contaminants such as rust, pipe scale, compressor lube oil, and water from compressed gasses.

OIL-FREE COMPRESSORS

**Gardner
Denver**

An oil-free design delivers ISO 8573-1 Class 0, 100% oil-free air and provides energy savings through high efficiency rotors & anti-friction bearings for long life operation.

RECIPROCATING COMPRESSORS

**Gardner
Denver**

Rugged & reliable best describe the Gardner Denver line of industrial reciprocating compressors.

KOBELCO COMPRESSORS

KOBELCO
KNW SERIES

Kobelco KNW Series Compressors are long lasting, highly efficient oil-free compressors, which meet ISO 8573-1 Class 0 for oil aerosol, liquid, vapor and silicon.

HIGH PRESSURE COMPRESSORS

**Gardner
Denver**
HIGH PRESSURE SOLUTIONS

High pressure air & gas reciprocating compressors offer a unique range of applications. Pressures from 36-6005 psig.

VACUUM SYSTEMS

BECKER

Oil flooded & oil-less designs available for industrial uses.

John Bouchard & Sons Co.

For over a century, the JBS tradition of innovation & excellence has helped create & maintain the systems that keep the Mid-South running.

JOHN BOUCHARD & SONS CO.

BUILDING & SUSTAINING
HARDWORKING INFRASTRUCTURE

— SINCE 1900 —

30 + years of distribution
for Gardner Denver

NITROGEN GENERATORS

**Gardner
Denver**

In the modern manufacturing environment, such as bio-medical technology & food processing, the requirement for high purity nitrogen gas continue to grow.

BLOWERS

**KAESER
OMEGA BLOWERS**

Rotary lobe blowers are ideal for pneumatic conveying of bulk materials, filter backwashing, aeration applications, wastewater treatment plants and nitrogen conveyance.

CHILLERS & COOLING TOWERS

**Gardner
Denver**

Industrial chillers, cooling towers, pumps, filtration, condensers, evaporators, heat exchangers, tanks, and control panels.

MACHINE & AIREND REBUILDS

JBS can extend the life of air compressors, blowers and vacuum pumps utilizing our rebuild service center to insure long lasting dependability & reliability.

AFTERMARKET OIL & COMPRESSOR PARTS

JBS offers Aftermarket Oil and Parts for all makes and models of air compressors. As a service center for leading compressor brands, we understand your equipment and the specific grade of oil needed for its peak performance.

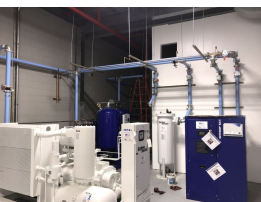

PREVENTATIVE MAINTENANCE & MACHINE REPAIR

Our experienced field service technicians service & repair all brands of compressed air equipment including Gardner Denver, Ingersoll-Rand, Atlas Copco, Sullair, & Quincy.

24/7 RENTAL COMPRESSORS & ANCILLARY EQUIPMENT

JBS has a full fleet of rental air compressors from 5HP to 300HP immediately available for rent. All electric units are self-contained and need only to be wired to your disconnect and piped to your air-line.

TURNKEY INSTALLATION & AIR AUDIT SERVICES

JBS offers compressed air audits and turnkey project management to upgrade, install, or automate compressed air systems.
